

# Samuel Osemeke

## Front-End Developer|JavaScript|React|VueJS

✉ mrexelsam1@gmail.com    🔗 <http://www.linkedin.com/in/oxcode001>    🔗 <https://github.com/oxcode-dev>

### SUMMARY

Software developer with over 5 years of experience in building world-class products that solve real problems. Expertise in ReactJS, VueJS and CSS, with a proven track record of crafting custom websites and collaborative application development.

### EXPERIENCE

#### Frontend Developer

TechIM

📅 2023 - 2024

- Spearheaded web development initiatives: Shaped the company's web development strategy, setting technical standards and fostering a culture of continuous improvement.
- Built and managed high-performing development teams: Recruited, onboarded, and mentored talent, fostering a collaborative and productive team environment.
- Evangelized new technologies and best practices: Stayed abreast of industry trends, evaluated new technologies, and implemented advancements that enhanced team efficiency and project outcomes.
- Delivered high-impact web solutions: Championed web projects that significantly improved user experience, brand awareness, and business metrics.

#### Team Lead, Frontend

Tedbree, London

📅 2022 - 2024

- Owned code quality and testing: Wrote clean, maintainable code, and actively participated in code reviews, fostering a culture of high-quality code and optimized performance.
- This description highlights the core responsibilities and skills of a mid-level frontend developer, focusing on user interface design, responsive development, API integration, and code quality. You can adjust the specific skills and projects to match the individual developer's strengths and experience
- Managed deployments and maintenance: Deployed applications to Heroku and other platforms, performed routine maintenance, and troubleshooted minor issues with confidence.

#### Front-End Developer

Tedbree, London

📅 2022 - 2020

- Crafted captivating UIs and single-page applications (SPAs): Mastered frameworks like VueJS & NuxtJS to build engaging, interactive UIs and SPAs, exceeding user expectations and boosting engagement.
- Championed responsive design: Implemented TailwindCSS or similar tools to build pixel-perfect layouts that adapt seamlessly across all devices, ensuring optimal user experience on any platform.
- Collaborated with back-end teams: Seamlessly integrated front-end applications with back-end APIs and services using Javascript, RESTful APIs, and other protocols, ensuring smooth data flow and functionality.
- Maintained 98.6% average client satisfaction score across all projects, well above industry average

### STRENGTHS

-  **JavaScript Expertise**  
Proficient in JavaScript, coded efficient, maintainable web applications that resulted in 30% performance improvement
-  **Cross-functional Teamwork**  
Experience collaborating with cross-functional teams to develop feature development across many software projects
-  **Self-starter**  
Proven ability to work independently, manage multiple projects simultaneously leading to timely, accurate results

### SKILLS

JavaScript	React	Nextjs	HTML
CSS/SASS	RESTful web services		
Git/Github	TailwindCSS	BootstrapCSS	
Material UI	NuxtJS	Firebase	jQuery
Scalability	Interface Design	Heroku	
Netlify	Vercel		

### PASSIONS

-  **Coding Challenges**  
Love solving complex problems and challenges through coding
-  **Reading and Learning**  
If i'm not writing codes, i love reading because it is great for my soul

## EXPERIENCE

---

### Software Developer

#### Corpreneur

📅 2019 - 2020

- Implemented code standards that improved team's average productivity by 25%
- Integrated APIs and third-party services: Seamlessly connected front-end applications with backend APIs and services using Javascript and RESTful APIs, ensuring smooth data flow.
- Implemented responsive design principles: Mastered responsive design techniques using TailwindCSS to ensure optimal website layouts across all devices.
- Improved SEO performance of company websites by 35%

### Junior Web Developer

#### Rhapsody Travels & Tours

📅 2018 - 2019

- Built responsive landing pages: Utilizing HTML, CSS, and Javascript, I created engaging landing pages that optimized conversion rates across various devices.
- Implemented interactive UI elements: Enhanced user experience with Javascript animations, sliders, and forms, demonstrating understanding of web fundamentals.
- Assisted senior developers: Contributed to larger projects by testing functionalities, fixing minor bugs, and learning best practices from experienced team members.
- Actively expanded skillset: Completed online courses and personal projects to strengthen Javascript, JQuery, and CSS skills, demonstrating initiative and a commitment to continuous learning.
